SHELBYVILLE, ILLINOIS

ILLINI ELITE SALE

Welcome

On behalf of Rincker Simmentals and Fox Creek Cattle we would like to welcome all of you to our 6th Annual Illini Elite Sale. The Tarr and Rincker families could not be any more excited about the 2011 offering of breed leading genetics from the "No Joke" and "Miss Excitement" donor bloodlines as well as other top producing cow families beginning to make their own mark in the show and beef production industries. We have selected hard for this sale and believe that you have tremendous selection quality in both show heifers and steers as well as the bred females and two top end herd sires.

In addition to a truly elite offering of cattle, this year's Illini Elite does however have some firsts. This year's sale has a new location two miles from previous sales at the new "Rincker Simmental Sale Facility" with location details in the Sale Information below. The new site will provide added space to inspect and view the sale offering as well as provide a larger dedicated under roof area for the auction and buyer comfort. We are also pleased to announce that the sale will migrate to a true auction utilizing the talented services of Illinois auctioneer Brent Titus.

We could not be any prouder of our past customers who have found success and as always the Illini Elite Sale will again recognize those successes in our "2010-2011 Scholarship Winners" at the onset of the 2011 sale. We look forward to seeing all of you at the Illini Elite Sale the weekend of September 18th!

*Respectfully,
The Rincker and Tarr Families*

We invested in some genetics of Adcock's donor Oval F Nicholette N443 and used Dreamworks because of his great mother Black Jade. Result FC Nicole. She is super long and clean and you can't get one to profile any better down their top. Exciting prospect combing excellent performance with a great pedigree.

Going back to a daughter of the Miss Excitement K3 cow, Simone has that same soft look with tremendous rib and flank depth. With that much depth, this Bismark halfblood has a killer profile with ample shape and doing so on a sound base. You will find her in the pen quick as 503Y has the ability to both show and be a quality cow replacement.

Promise You That is an outstanding halfblood prospect. She is by our donor Jokes Promise and TC Aberdeen and a flush mate to Lot 17. Check out her neck, it's hard one with that extension and refinement. She couples that frecky front with plenty of body and muscle shape and outstanding EPDs. Wouldn't want to show against this one next year, donor material.

The last of the No Regrets x Dominations, Zoey is proof that red ones can be good too. Possibly the thickest for her age of any Rincker female in the sale, the 348Y heifer has tremendous show and cow replacement potential. I could have kept her back but wanted to offer a nice May!

Pasture Sire: RS Vantage Point 153X (2542196) from 6/1/11 to 7/8/11

Here's a quality cow being sold in the prime of her production.

Originally purchased from Diamond A this Black Joker has been doing a good job producing quality bulls and heifers including a high dollar bull in last year's WIU bull test sale. She could certainly stay here but just like the heifer calves we want our customers to know that even our best sell.

This Preferred Beef young five-year-old cow has been a good producer. Her calves typically get pulled out first and that can continue for you. Tremendously thick topped with lots of production her mating to Built Right will be one to anticipate. Bred for an early calf.

I really like this young baldy bull out Built Right and our donor cow, K3 Miss Excitement. I typically move the bulls after 1 year as a RS herdsire but most certainly contemplated hanging onto these rare genetics for a couple more breeding seasons. This guy will keep someone in the business with as much shape and scale that he possesses along with his killer profile and look.

Here's an opportunity to land on a young herdsire that will thicken up and moderate those cows. The Bonus bull himself is just that and goes back to a good Emblazon cow that assures the same. Muscle, rib, and soundness combined with low birth and plenty of marbling EPDs. Those dividends will just keep on coming!
